

Dear Guests of La Mision's,

We are thrilled to be opening our doors for dine-in experiences.

Over the past few months, we have been drilling down on best practices for our full-service restaurant and bars by developing new systems that will meet all guidelines recommended by local, state and federal authorities.

The safety of our team and our guests is our top priority. The following is a glimpse of our list of new protocols for dine-in.

- Mandatory face masks for our team members
- Frequent change of face masks
- Updated glove use and hand washing policy
- Physical distancing design of tables and chairs
- Single use of menus
- Sanitizer stations conveniently available
- Silverware, pens and stylists sanitized between each use
- Employee temperature checks before each shift

Sincerely Thankful,

La Mision's Family
